About Me

Prolific, full stack web developer with +10 years of experience in frontend and backend development. I always try to implement the very best approaches and paradigms. My main goal is to work with ambitious and agile business owners and entrepreneurs who can visualize and describe their ideas. I am proficient in Django/Laravel and modern JavaScript frameworks like React, Vue.js, and Express.js.

Relevant Experience

Full-stack Software Engineer

Freelancer · May 2021 - Present

- Worked as a part-time technical consultant for a sports betting service and Casino
